- Tableau, Power BI, RShiny for making dashboards

## Education

2016-08 - 2021-12

### Bachelor of Science: Statistics

*Ohio State University - Columbus, OH*

## Projects

- **Portfolio:** <https://cluffa.github.io/portfolio> Is a self-made website that includes statistics, interactive dashboards, data visualization, SQL, and machine learning projects with summaries and links to GitHub repositories.
- **BarTracking:** [https://github.com/cluffa/bar\\_tracking](https://github.com/cluffa/bar_tracking) is a machine learning project that utilizes deep learning and computer vision to track the path of a barbell when performing a lift. I worked on every aspect of machine learning when creating this project. I Annotated data, handled data pipelines, designed model architecture, trained it with GPUs, optimized, and made the data useful.
- **Weightlifting results dashboard:** <https://cluffa.shinyapps.io/IWF-Data-Explorer>
- **Weight loss tracking dashboard:** <https://cluffa.shinyapps.io/Weight-Loss-Trends>
